

Take Calls and Listen to Tunes — On the Go!

Plantronics offers a new series of comfortable, lightweight headsets that combine high quality stereo listening with crystal clear conversations so you can immerse yourself in music and never miss a call on your music-enabled mobile phone. The three different wearing styles means there's a model to fit your lifestyle.

MHS 113

Great stereo sound to enhance listening experience

Flexible ear bud design for a comfortable fit

Inline microphone with convenient one-touch call answer/end button

The MHS family of stereo headsets includes:

- **MHS 113** with comfortable, flexible ear buds
- **MHS 123** with comfortable ear cushions and clip on over the ear loops for stability
- **MHS 213** with discreet, sound-isolating ear phones

MHS 123

High fidelity stereo sound for enhanced listening experience

Comfortable cushions with stable ear loops for all-day wear

Inline microphone with convenient one-touch call answer/end button

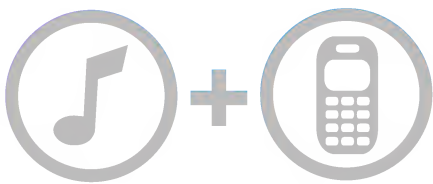

MHS 213

Discrete, lightweight design with outstanding audio quality

Sound-isolating in-ear design blocks out noise for full stereo immersion —perfect for commuting or travel

Inline microphone with convenient one-touch call answer/end button

This Plantronics headset delivers superior durability and reliability backed by a one-year warranty. Questions? (800) 544-4660

Warning: Use of a headset that covers both ears will impair your ability to hear other sounds. Use of such a headset while operating a motor vehicle or riding a bicycle may cause a serious hazard to you and others and is prohibited by law in some regions.

Warning: Do not use headphones/headsets at high volumes for an extended period of time. Doing so can cause hearing loss. Always listen at moderate levels.

Sound Innovation for missions to the moon. And for everyday life on this planet, too.

In 1969, a Plantronics headset carried the historic first words from the moon: "That's one small step for man, one giant leap for mankind." Today, we're the headset of choice in mission-critical applications such as air traffic control and 911 dispatch. This history of proven sound innovation is the basis for every product we build—whether it's for work, for home or on the go.
